HONESTLY AUTISM DAY 2019

ABOUT

Honestly Autism Day is a day devoted to understanding autism and is presented by the Partnership Project, which is a collaboration between the **Autism Society of Baltimore-Chesapeake**, the **Baltimore County Public Schools' Office of Special Education**, and the **Department of Special Education at Towson University**. It is held in April to celebrate Autism Awareness month. Parents, family members, professionals and people with autism come together to listen, ask questions and learn from each other.

Experienced speakers share their knowledge of vast topics related to autism and individuals with autism give open and honest insight into their lives on the autism spectrum. It is a positive, uplifting day filled with revelations and shared ideas.

THE HEART OF IT

When planning we come from a place of generous abundance, planning to bring the best to our community and then making it happen. By adhering to the underlying theme of presuming competence and highlighting the gifts of the autistic community, while never shying from or apologizing for the honesty; we create an atmosphere where perspectives can and do change. It is our ultimate goal to inspire and to generate the goosebumps and the passion that is necessary for creating a world of opportunities, acceptance and meaningful change.

We need your support.
